

RFI 10-A
Questions & Answers

- Q1. Are you seeking a single service or program to accomplish all of the goals outlined in this RFI? Or, is the intent more to provide an arsenal of tools for the use of citizens who are preparing for and taking the COMPASS exam, or working on the non-credit developmental educational courses?
- A1. Yes. We are seeking one service to accomplish all of the goals. If one service does not exist or cannot be customized, then we will look at acquiring a variety of tools to fulfill our needs. The goal is to prepare students so that they do not need remediation at the postsecondary level.
- Q2. I was wondering if this was a new requirement or if there is a vendor currently providing this service? Is there a budget in place? If so, what is the amount?
- A2. This is a new initiative and there is no incumbent vendor. There is no current budget in place. We would like to know if charges would be made (per license, per site, etc) before coming up with a set budget amount.
- Q3. Does a company have to reply to this RFI to be considered for the resulting solicitation that may be issued?
- A3. No
